FEMININE HYGIENE UNIT

Enviro-LCS™ has developed a safe feminine hygiene unit that sets a new environmental standard in the industry. It comprises an innovative side opening trap which faces the user at toilet seat height, coupled with unique slimline low profile design which is user friendly and unobtrusive even in the smallest cubicle. It is moulded in Australia exclusively by Enviro-LCS™ to Australian design and hygiene specifications using high speed injection moulding. At each service the unit is removed and replaced by a fully sterilized unit containing Sanisorb®, natural (chemical free) waste treatment and odour eliminator (see Sanisorb® brochure). Each unit also comes complete with a label and is finished in neutral silver grey.

OPTIONS: Fully serviced.

SERVICE FREQUENCIES AVAILABLE:

Bi-weekly, weekly, fortnightly, three weekly, monthly, six weekly. All services include Touchprobe™ attendance verification and computer scheduling (see Touchprobe™ brochure).

OTHER RECOMMENDED PRODUCTS AND SERVICES:

Airfresh units, tampon and napkin vending machines.

FURTHER INFORMATION: For further information regarding any of our washroom products, contact Enviro-LCS™ on (02) 9310 1400, or visit our website at www.enviro-lcs.com.au.
